DISASTER PLAN

IMMEDIATE ACTION STEPS FOR MANAGEMENT

1. Establish a command post as near the emergency scene as is safely possible and determine the extent of damage.
2. As soon as the situation is evaluated, the Incident Command Officer instructs Operations Base to:
 - a. Notify proper personnel
 - b. Activate disaster procedures
 - c. Contact necessary services (see Emergency Phone Number list)

INTRODUCTION

Any interruption of park operation resulting in large quantities of injured people, mass destruction of property, or the potential of same, must be considered a disaster.

This type of disaster could be caused by many situations of which the following are the more likely:

- a. Severe storm events, tornados, hurricanes
- b. Major ride accident
- c. Explosion or fire
- d. Earthquakes

All departments will have specific responsibilities in the event of a disaster, but the prime responsibilities of all employees involved will be under the direction of the Incident Command Officer as outlined in the following pages.
